## Profile

---

A responsible and enthusiastic 2nd-year BA Computer Games Modelling and Animation student, who has experience with jobs like graphic designer and IT support, is now seeking an internship. Graduated from Private College of Computer Science with focus on graphics system and website development.

## Relevant Experience

---

### Graphic designer (Contractor) - Inveo inc.

Since March 2017

In company Inveo itc. I was responsible for preparing newsletter templates.

I made completely new templates and I also adjusted the existing templates where I changed the products and made new banners for new campaigns.

I had an opportunity to make new templates/banners for companies like Douglas, Kiehls, J&T Bank and many more.

Inveo itc. is a big company which doesn't have any competition in the Czech Republic and is gradually entering the world market.

### Graphic designer and HTML & CSS3 Coder - Freelancer

Since January 2016

Since January 2016 I've been working as freelance Graphics designer as well as HTML5 and CCS3 Coder.

I use programs like Photoshop, Illustrator, InDesign, Sketch, Net-Beans, Atom, Edge Animate, Animate CC daily.

I've made webdesign, app-design, logos, prints, corporate identity, responsive layouts (design as well as front-end code).

State contract on webdesign and prints materials for Power Plate Ltd. belong among my biggest projects.

### 2D Animator / Designer (Internship) - Médea Creativity inc.

May - October 2017

Beside making of classic digital adds, animating banners in wide range of formats belonged among my duties as well.

My collaboration with the company was based on: Getting a Photoshop project and then preparing images for export to Adobe Edge Animate. This is followed by making the animations in Edge Animate according to task.

Normally, I worked with triggers, loops and symbols.

### Graphic designer (placement) - Inveo inc.

August 2016

## Relevant Skills

---

### Communication

The jobs as self-employed graphic designer have improved my communication and management skills because I have had to communicate with clients.

### Time management

Everytime I get a task, I have to meet the deadline, and that's why I must manage my time carefully .

### Teamwork

Often times, when we work in team on bigger projects I am always eager to get involved.

## Hard Skills

---

Photoshop		Zbrush	
Illustrator		Substance Painter	
Edge Animate		Substance Designer	
Flash / Animate CC		Unreal Engine	
Sketch		Marmoset Toolbag	
Premiere		xNormal	
After Effects		Git
